Ultimate Safety & Art

大安全·大艺术

空间功能材料服务商

浙江瑞欣装饰材料有限公司成立于1996年，总部位于上海，是国内耐火板行业知名的研发、设计、生产、销售型企业。

2021年，瑞欣成为上市公司广东天安新材料（603725.SH）全资子公司，通过产业协同提升技术与市场竞争力。公司严格遵循ISO9001、ISO14001、ISO45001管理体系，并通过DNV EC MED-B+D、GREENGUARD金级等权威认证，产品质量符合甚至优于NEMA、BS EN438及ISO国际标准。

秉承“创新实现超越”品牌精神，以“大安全”和“大艺术”为核心，瑞欣推出高压装饰耐火板（HPL）、不燃高压树脂板（TAIKA）等8大系列环保产品，应用于墙面、地板、家具等五大场景，覆盖家装、工装、户外及交通领域。

瑞欣专注研发，与国家级研究员合作，持续推出环保材料，为客户提供创意实现平台。以客户为中心，通过全流程服务精准满足需求，致力于“重塑装饰，重构X空间”，打造安全与艺术兼备的全球空间解决方案。

Established in 1996 with H/Q in Shanghai, factory and R&D center located in JIASHAN, Zhejiang Province. Focusing on research and innovation, REXIN has become a leading High Pressure Laminate (HPL) manufacturer in China. Other than export sales, REXIN has solid footprint in major cities in China.

In 2021, REXIN became a wholly-owned subsidiary of Guangdong Tianan New Materials (603725.SH), strengthening its technical and market competitiveness through industrial collaboration. REXIN products conform to ISO9001, ISO14001, ISO45001, ASTM G21, JIS Z2801, ISO22196, meet or exceed the NEMA LD-3, BS EN438, ISO4586-2 standards. And certified by UL GREENGUARD, GREENGUARD GOLD, Singapore GREEN Label, DNV EC MED-B+D Certification and honor as SEFA membership and complies with FSC COC.

Embracing the brand spirit of "Innovation Achieves Transcendence," REXIN focuses on Ultimate Safety & Art. Its portfolio includes eight eco-friendly product series, such as High Pressure Decorative Laminate (HPL) and Non-Combustible High Pressure Melamine Board (TAIKA), widely applied across five major scenarios: walls, floors, furniture, ceilings, and doors, in residential, commercial, outdoor, and transportation spaces.

Guided by a customer-centric approach, REXIN delivers tailored solutions to meet specific needs, striving to "Reform Deco, Reform X-Space" and offer global space solutions that blend safety and art.

无常美·X空间

EVER-CHANGING ART

X-SPACE

秉承“创新实现超越”的精神，瑞欣突破传统装饰材料界限，融合功能与艺术，创新花色与肌理、产品性能，重塑X空间，并赋予使用者随着时间与环境流动的空间多元体验。这是一个充满无常美的场域，在这里，任何一位可能的使用者，欣然创造的不仅是空间，更是变化，细微与当下。

Embracing the spirit of "Innovation Achieves Transcendence", REXIN breaks the boundaries of traditional decorative materials, merging function and art with innovative colors, textures, and product performance. It reforms X-Space, offering users a dynamic and multi-dimensional experience that evolves with time and environment. This is a realm filled with impermanent beauty. Here, every potential user creates not only space but also change, subtlety, and the present moment.

Ever-Changing Art

以人为本，聚焦可持续发展，诠释“万物生生不息”的哲学。材料是流动的，空间是多义的，意义由使用者在当下的感受中赋予。瑞欣的产品忠于过程中的每一位使用者，回归诚实，回归物之所物，由其定义、重构和再创造。

People-centered, focusing on sustainable development, interpreting the philosophy of "All things are ever-renewing". Materials are fluid, and space is multi-meaning. Meaning is assigned by the user's perception in the present moment. REXIN's products stay true to every user in the process, returning to honesty, returning to the essence of the material, defined, reformed, and recreated by it.

TAIKA

Ultimate Safety & Art

Featuring superior antibacterial and antiviral properties, the product effectively inhibits bacterial growth. It is stain-resistant, easy to clean, and disinfectant-resistant. Certified as Class A non-combustible, it offers efficient, dust-free, and quick installation. Ideal for both residential and commercial applications, it is particularly suited for hospitals, malls, schools, and similar settings, providing safe, efficient, and durable wall protection and decorative solutions.

iCORE

Crafted Tinted Cores

Inspired by classic colors from the natural spectrum, the design presents a consistent color scheme, creating a seamless and unified elegance. This color consistency reduces processing steps, improving installation efficiency. It is widely applicable to residential, commercial, and furniture manufacturing, providing high-quality solutions for various spaces and products.

AUTLEAF

Outdoor Materials & Design

Featuring water and moisture resistance, weatherability, UV resistance, and anti-yellowing properties, this product remains stable over time. It is suitable for building façades, signage, balcony partitions, railings, shading curtains, and more, as well as commercial, residential, and outdoor furniture. Its durability breaks the boundary between indoor and outdoor spaces, transforming creative designs into lasting realities.

High

Pressure Decorative Laminate (HPL)

Durable surface material with superior fire resistance. Rich colors and textures, exceptional design aesthetics, and diverse size options. With excellent performance and versatile options, HPL is ideal for modern interior design and furniture, offering high-quality solutions for space design.

Style Metal

Fresh & Creative

Featuring advanced nano-metal coating technology, the product showcases a metallic texture and gloss with excellent abrasion resistance. Its color is durable and stable. Certified for fire safety, it is reliable and suitable for commercial, residential, and furniture applications. With its unique material and superior performance, it meets functional requirements while adding a modern and creative touch to spaces, making it an ideal choice for designers and clients.

Fire Resistant

Mold & Moisture Resistant

Stain & Dirt Resistant

E0 LFME

Magnetic TAIKA & HPL

Customized Magnetic Wall

Combining writable decorative surfaces, a magnetic layer, and special core material, this product is suitable for walls, furniture, and other applications. The magnetic layer can attract magnetic items, enhancing space utilization. The writable surface allows for repeated writing and erasing, providing a flexible and efficient solution for modern interior design.

THE ART OF EMPTINESS

「余白 The Gaze Of Ever-Changing Art 艺术」

无常之美的凝视

余白不仅是物理空间上的“空白”，更是人与世界、物与物之间的关系。它代表着一种未被填满、充满可能性的开放状态。余白并非“空无”，而是蕴含了潜在的能量与张力，是事物之间的连接与对话之所，是动态的时间流动，是无常的美。

Emptiness is not merely the "blankness" of physical space; it is the relationship between people and the world, between objects and objects. It signifies an unfilled, open state brimming with possibilities. Emptiness is not "nothingness" but a source of latent energy and tension—a space for connection and dialogue, a dynamic flow of time, and the ever-changing art.

素色，是余白的表现形式，色彩的显现，
更是情绪的承载，一种在简约中释放无
尽可能的艺术表达。

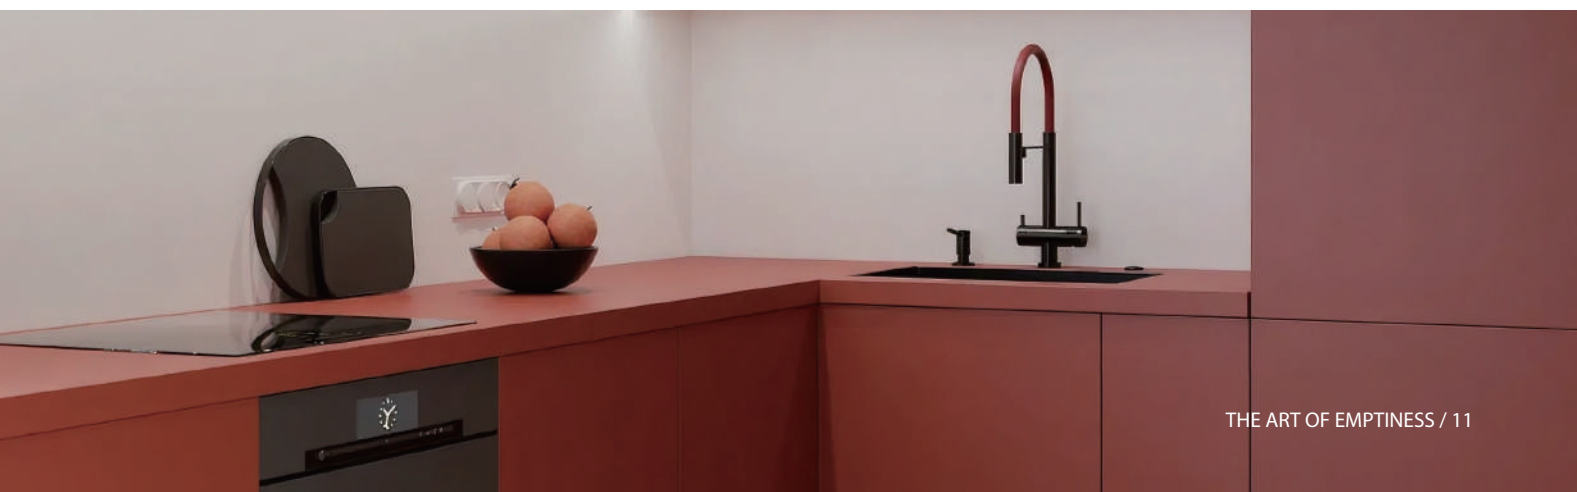

Solid colors are a manifestation of
this emptiness. Their simplicity
carries emotions, becoming a
medium for artistic expression that
releases infinite possibilities through
minimalism.

The Art of Emptiness

它邀请每一位创造者和体验者，在这片余白中重新发
现空间的意义与自身的感受。简约的背后，是艺术与
哲学的交融，赋予空间无限的生命力与艺术张力。

It invites every creator and experiencer to rediscover
the meaning of space and their own emotions within
this emptiness. Behind the simplicity lies a fusion of
art and philosophy, infusing space with boundless
vitality and artistic tension.

LINEAR ART

「线性艺术」

Exploring the Ever-changing Art
of Nature and Order

探寻自然·秩序的无常美

线性艺术，强调线条的动态性和叙事性，是对自然与秩序关系的深刻探寻，是对自然生命轨迹与空间连接的延展。线性艺术木纹系列，捕捉自然的肌理与纹路，将木材的生命印记转化为艺术表达。

Linear art emphasizes the dynamic and narrative qualities of lines, serving as a profound exploration of the relationship between nature and order and an extension of the connection between the trajectory of natural life and space. The Linear Art Wood Grain Series captures the textures and patterns of nature, transforming the life imprints of wood into artistic expression.

纹理的无常变化仿佛是时间的波动，在有序与随机中展现生机与深刻。它不仅是一种视觉符号，更是一种触觉与精神体验，传递自然的力量与和谐美。

The ever-changing patterns resemble the ripples of time, showcasing vitality and depth within the interplay of order and randomness. It is not merely a visual symbol but also a tactile and spiritual experience, conveying the power and harmony of nature.

噪点艺术，是随机性、无序性和非传统的美学表现形式。“噪点艺术”中粗糙的山石纹理、随机分布的点、斑驳的线条等元素，表现出对规则与对称的挑战，呈现出不完美和自然的粗糙感。

Random noise art is an aesthetic form characterized by randomness, disorder, and non-traditional beauty. In random noise art, rough stone textures, randomly distributed points, and mottled lines challenge rules and symmetry, presenting imperfection and the rawness of nature.

RANDOM NOISE ART

「噪点 艺术」

Echoing the
Rhythm of Nature

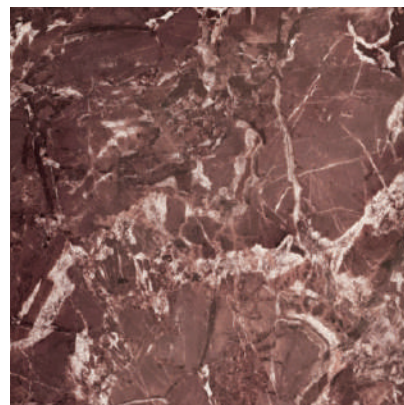

回响自然律动

在这里，石纹纹理化为流动的美学符号，让每一位设计者与使用者在其中感受时间的延续与空间的包容。无常之美在颗粒与脉络中流转，使空间成为生命与记忆共存的场域。

Here, stone textures are transformed into fluid aesthetic symbols, allowing every designer and user to experience the continuity of time and the inclusivity of space. The beauty of impermanence flows through particles and veins, making space a realm where life and memory coexist.

DECONSTRUCTIONIST ART

「解构 艺术」

Reforming the
Farther Boundaries of Space

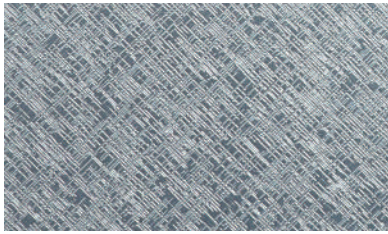

重塑空间更远处

金属纹理，阐述并重塑了解构艺术核心理念，将工业的冷峻与材料的多样性重新编织为富有深意的设计语言。每一种纹理，皆是对传统规则的打破与新结构的构建，呈现出一种理性与感性共存独特美学。

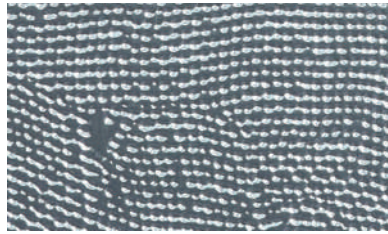

金属纹理承载着解构艺术的多义性，它通过光影的交叠与触感的丰富性，模糊空间的边界，重构视觉与情感的联系。在材质与空间的互动中，它展现了动态的秩序感与细腻的深度，为设计师提供了无尽的创意可能。

Metal textures articulate and redefine the essence of deconstructionist art, weaving industrial austerity and material diversity into a meaningful design language. Each texture, breaks traditional conventions and constructs new frameworks, embodying a unique balance of rationality and emotion.

Metal textures carry the ambiguity of deconstructionist art, blending light, shadow, and tactile richness to blur spatial boundaries and reshape the connection between vision and emotion. Through the interplay of material and space, they reveal a dynamic sense of order and nuanced depth, offering designers endless creative possibilities.

BROCADE PATTERN ART

「绮纹 艺术」

The Natural Expression
of Human Warmth

人性温度的自然呈现

以工艺艺术为核心，探索材质与手工的深度融合，将自然肌理与人性温度注入现代空间设计之中。这些纹理展现了对手工质感的珍视，将织物的柔韧与层次感以当代方式重新演绎，每一块板材都仿佛呈现出莫里斯织物中的细腻纹样，或阿尔托设计中那种质朴而感性的表达。

At the core of craft art, this approach explores the deep integration of materials and craftsmanship, infusing natural textures and human warmth into modern space design. These textures reflect a reverence for the tactile qualities of handmade work, reinterpreting the flexibility and layers of fabric in a contemporary way. Each piece of panel seems to present the delicate patterns found in Morris fabrics, or the simple yet emotional expressions seen in Alvar Aalto's designs.

这种艺术超越了视觉上的美感，更成为设计者与使用者之间的一种隐形对话。设计师可以通过布纹的柔和肌理、结构韵律，重塑空间的层次与平衡；使用者则在材料的触感中感知一份内敛的宁静与归属感。

This art transcends visual beauty, becoming an invisible dialogue between the designer and the user. Designers can reshape the spatial layers and balance through the gentle texture and structural rhythm of fabric patterns, while users experience a sense of quiet and belonging through the tactile sensation of the material.

REFORM CARVINGS

「重构

雕刻」

Reform Three-
Dimensional Vitality

重塑立体生命力

以独特的技术将原本平滑的表面转变为充满立体感和丰富肌理的艺术作品。通过精细雕刻的钢板，赋予原有纹理深度和层次，使木纹、石纹、布纹等肌理更加生动立体。

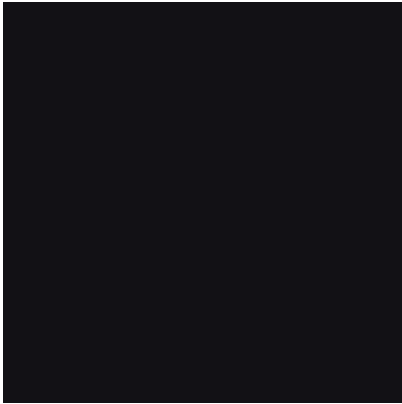

Using advanced techniques, the originally smooth surfaces are transformed into artistic creations rich in depth and texture. Through finely engraved and etched steel plates, natural patterns such as wood grain, stone textures, and fabric weaves are brought to life with enhanced dimensionality and detail.

在空间重塑的过程中，这种具有立体感和肌理感的纹理不仅打破了传统表面的平淡，还为空间注入了更多的生命力与动感。

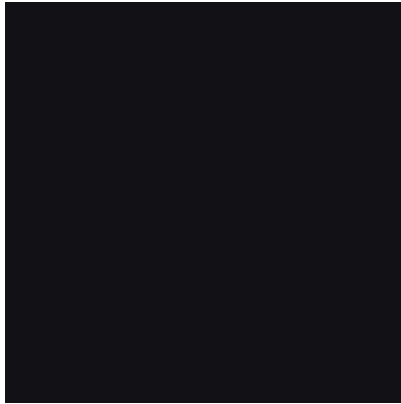

In the process of spatial transformation, these textured, three-dimensional surfaces go beyond the monotony of traditional flat materials, injecting vitality and dynamism into the space. These engraved steel plates serve as both a medium of expression and a tool for redefining the tactile and visual experience of modern design.
